**Subject:** *Request to provide information on national exemptions from the rules for UAS operations in accordance with EU regulations*

We kindly ask you to provide information about any exemptions from the AMC/GM and implemented rules (acts or provisions) for unmanned aerial vehicles (UAVs).

We are interested in:

1. Information on all current national exemptions/AltMoC's by the EU Member States regarding the UAS operations.
2. The scope and content of these exemptions/AltMoC's (e.g. regarding the category of operations, restrictions, procedures, application for UAS operators or UAV pilots).

As the Polish Chamber of Unmanned Systems, we want to analyze these exemptions and propose solutions polish CAA (ULC), that we could implement following the example of other countries.

Gratitude for sharing the information or the contact person in this matter.

Kind regards,  
*Polish Chamber of Unmanned Systems*  
*Management Board*
